## DETAILED ACTION

### *Election/Restrictions*

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-16, 23, and 24, drawn to a laser apparatus, classified in class 372, subclass 20.
- II. Claim 17, drawn to a semiconductor manufacturing method, classified in class 438, subclass 1+.
- III. Claims 18-20, drawn to semiconductor manufacturing method, classified in class 29, subclass 592.1.
- IV. Claim 21, drawn to a semiconductor manufacturing factory, classified in class 700, subclass 121.
- V. Claim 22, drawn to a maintenance method, classified in class 700, subclass 96.

Inventions I, II, III, IV, and V are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case, each of Inventions I, II, III, IV, and V do not require the specifics of the other inventions I, II, III, IV, and V.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, the search required for Group

Art Unit: 2815

II is not required for Group I, and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
